

## X Profile UPA Laboratorium Terpadu

Yus Rama Denny, Ph.D

# ABOUT US

- The only state university in Banten Province
- Variety disciplines of knowledges in bachelor and post-graduate program and professions
- Over 90% departments are nationally accredited and 4 departments internationally accredited (AUN-QA)

- Strategically located, only 84 Km from Jakarta and nearby national vital objects such as industries, cities and government site
- Best 15 innovative campus (Schimago Rangking) and 17<sup>th</sup> most sustainable university (UIGM)
- Research-focused on green and sustainability

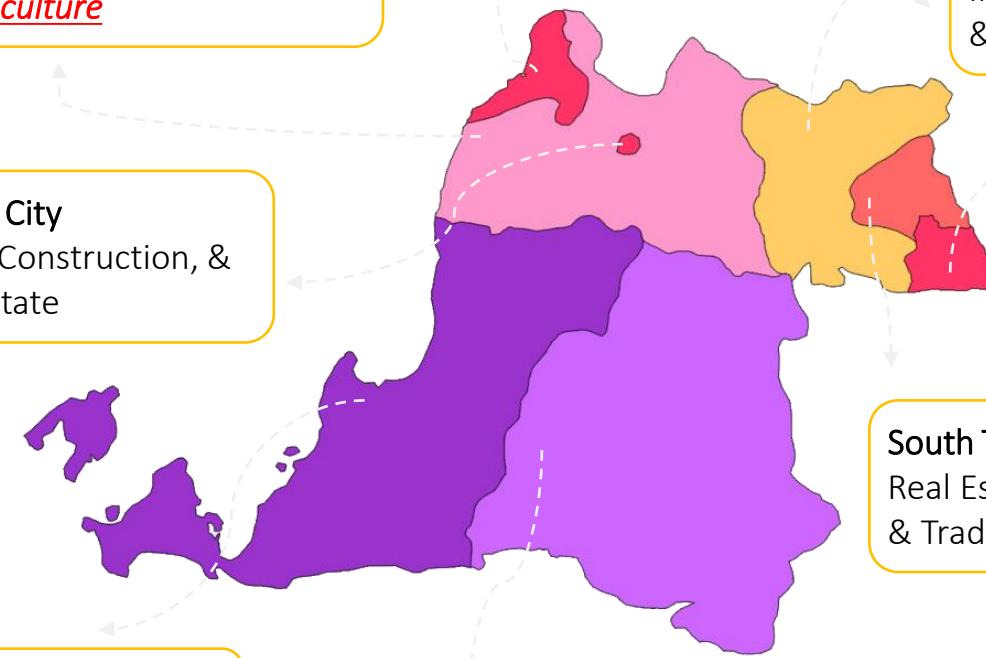

# BANTEN's POTENTIAL

Banten is here

Pandeglang District  
Agriculture, Trade & Mining

Cilegon District  
Industry, Trade &  
Construction

Serang District  
Industry, Construction &  
Agriculture

Serang City  
Trade, Construction, &  
Real Estate

Tangerang District  
Industry, Construction  
& Trade

Tangerang City  
Transportation,  
Industry & Trade

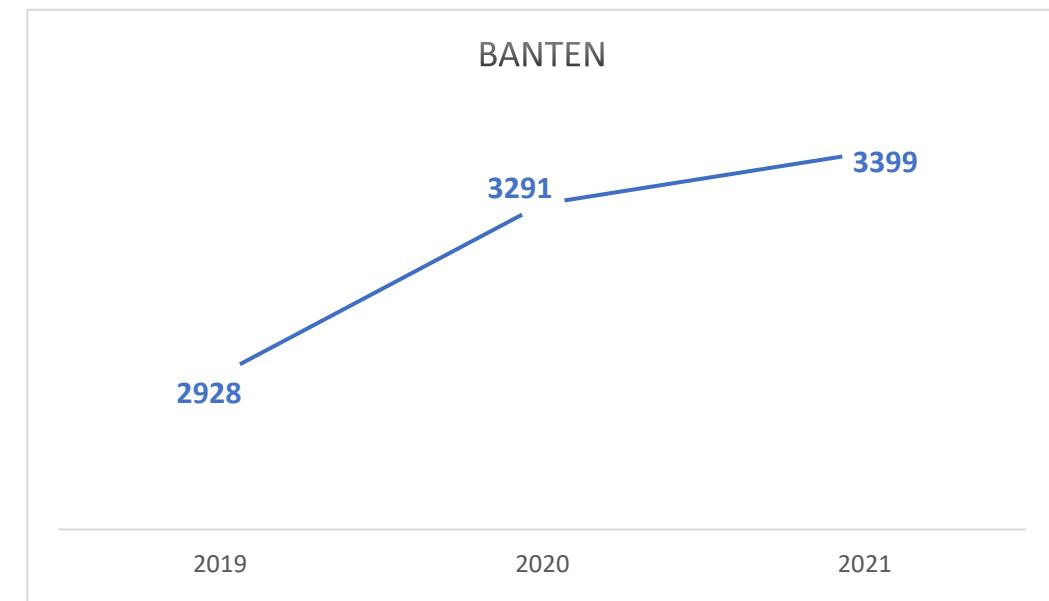

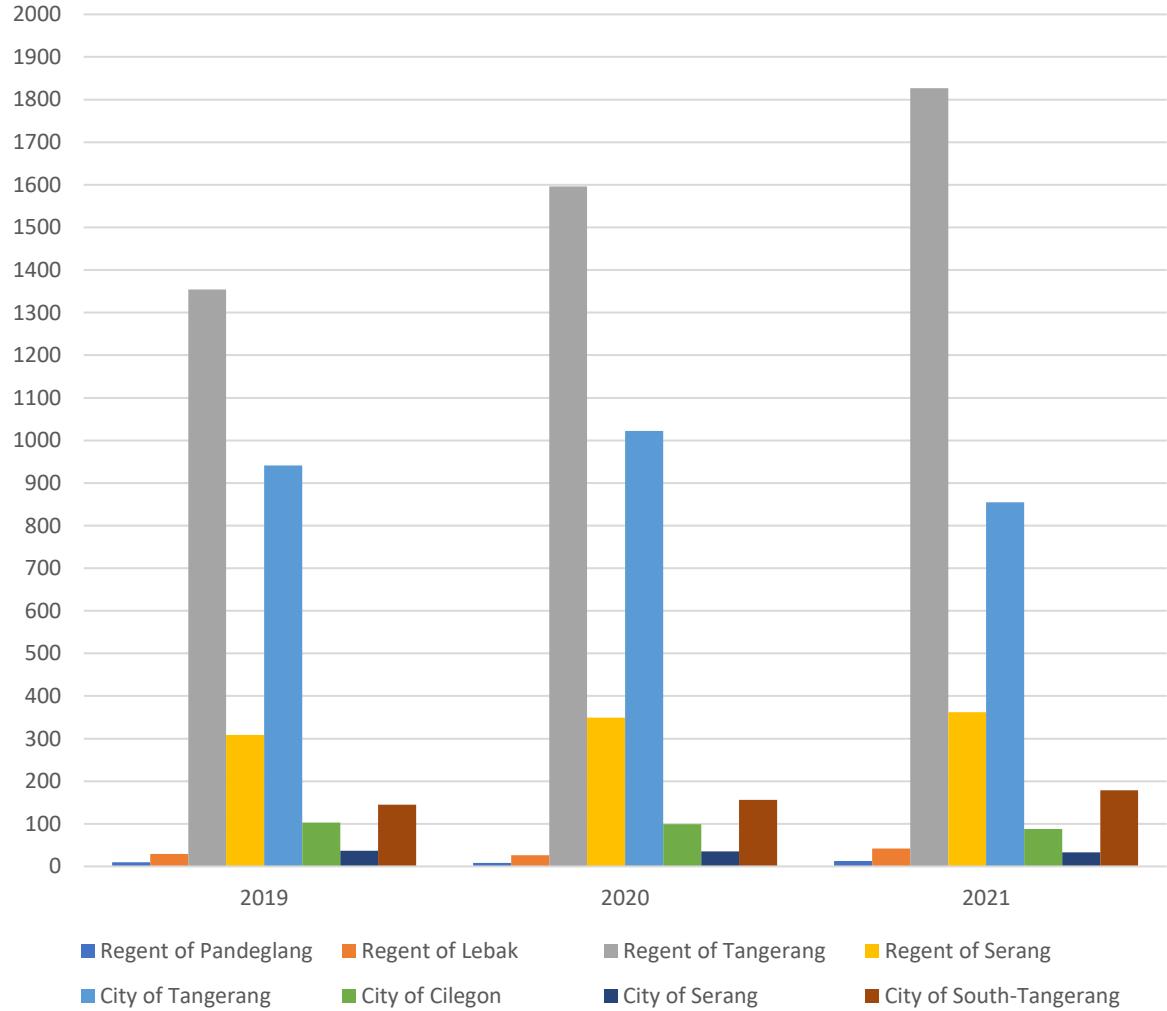

South Tangerang City  
Real Estate, Construction  
& Trade

Lebak District  
Industry, Trade & Agriculture

# INDUSTRIES IN BANTEN

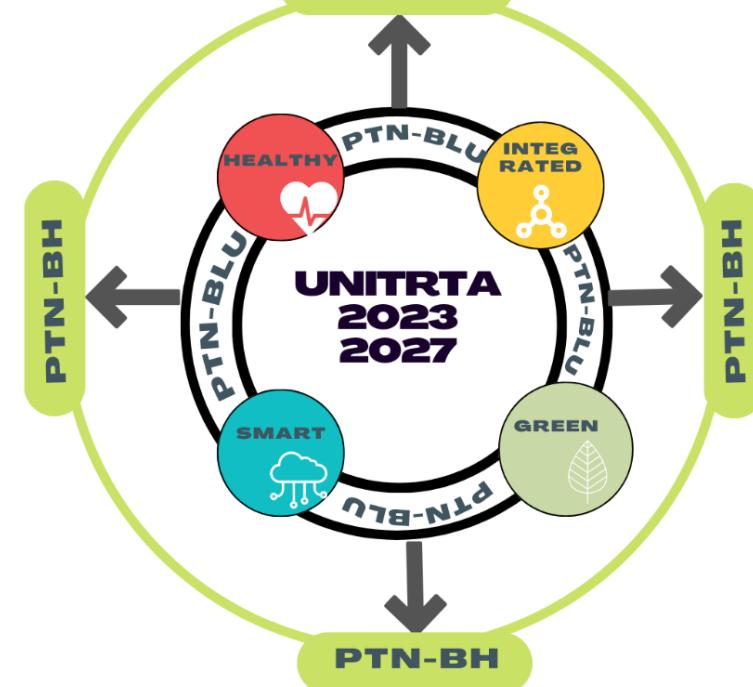

# VISI UPA Laboratorium Terpadu UNTIRTA

Menjadi Unit Penunjang Akademik (UPA) Laboratorium Terpadu yang unggul, terakreditasi, dan berstandar internasional dalam melayani penelitian, pengujian, dan pelatihan, guna mendukung tercapainya Healthy, Integrated, Smart, and Green (HITS Green) University yang Unggul, Berkarakter, dan Berdaya Saing Global pada tahun 2035.

Menyediakan layanan penelitian, pengujian, dan pelatihan yang berkualitas dan terakreditasi sesuai dengan standar nasional dan internasional.

Unggul : daya saing tinggi.  
Terakreditasi : KAN  
Terstandar Internasional : ISO 17025, 9001

Scheme of HITS and Green University

# MISI UPA Laboratorium Terpadu UNTIRTA

1

Menyediakan layanan penelitian, pengujian, dan pelatihan yang berkualitas dan terakreditasi sesuai dengan standar nasional dan internasional.

2

Mendukung pengembangan Untirta sebagai universitas yang sehat, terintegrasi, cerdas, dan ramah lingkungan (HITS Green).

3

Memfasilitasi kolaborasi antara akademisi, industri, dan lembaga penelitian baik nasional maupun internasional.

# MISI UPA Laboratorium Terpadu UNTIRTA

4

Menyediakan fasilitas laboratorium modern yang mendukung kegiatan inovasi dan penelitian yang berkelanjutan.

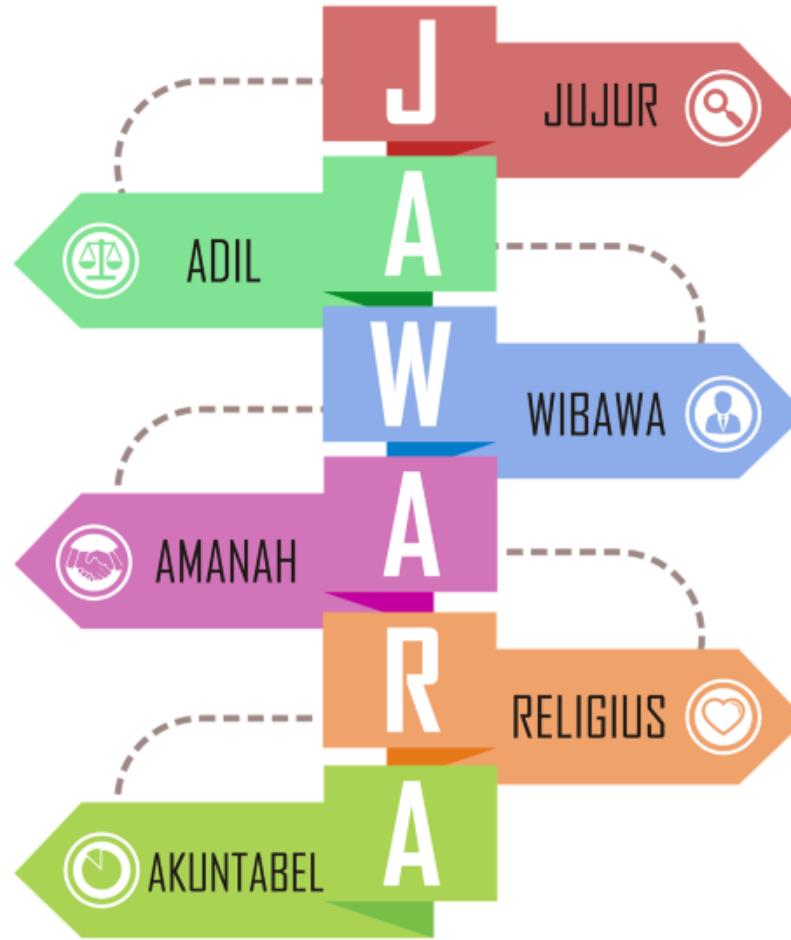

5

Meningkatkan kompetensi sumber daya manusia di bidang laboratorium melalui pelatihan dan pengembangan profesional berkelanjutan.

## VALUE/NILAI

### Nilai Kejuangan Sultan Ageng Tirtayasa

- Jiwa social
- Peduli lingkungan
- **Kerjasama**  
(Thandrasasmita, 1967)
- Nilai **persatuan dan kesatuan** melalui pembentukan kekuatan untuk mempertahankan dan melakukan strategi penyerangan tentara Belanda. (Michrob, 1993)
- Nilai **Kerjasama** dimana beliau memperkuat hubungan-hubungan dengan daerah-daerah sekitar kesultanan Banten. (Lubis, 2003)

### Nilai Pemikiran Syekh Nawawi Al-Bantani

- Eksistensi alam semesta
  - Potensi-potensi manusia
  - Eksistensi Manusia
  - Tujuan Pendidikan
  - Prinsip-prinsip aktivitas pendidikan Islam
- (Hidayat, 2019)

Pembentukan kompetensi akhlak merupakan perpaduan akhlak pada tataran kognisi, emosi dan tindakan. Yang meliputi:

- Akhlak terhadap Allah SWT
- Akhlak terhadap diri sendiri
- Akhlak terhadap Masyarakat

# PENGEMBANGAN GREEN UNIVERSITY

## Water

1. Water conservation program
2. Recycle water program ★
3. The use of water-efficient devices
4. Consumable Water program ★

## Education and Human Resources

1. Establish Smart and Green Unit ★
2. Incentive for SDG research ★
3. Establish Faculty of Environmental Studies
4. Publication, event, workshop and student unit in the basis of sustainable paradigm ★
5. Untirta Data Center for SDGs ★

★ Sudah tercapai

## Energy

1. 10% Renewable energy
2. Solar panel use ★
3. Internal Building Energy Audit ★
4. The use of energy efficient device
5. 20% reduction of enery consumption ★
6. Biogas unit

## Waste Management

1. Paperless and plastic less program ★
2. Integrated waste management
3. Untirta Sewage Systems (uss) ★
4. Litter bank system
5. Tipping fee litter for 500 ton/hari
6. Incenerator procurement
7. 3R Garbage ban ★

## Setting and Infrastructure

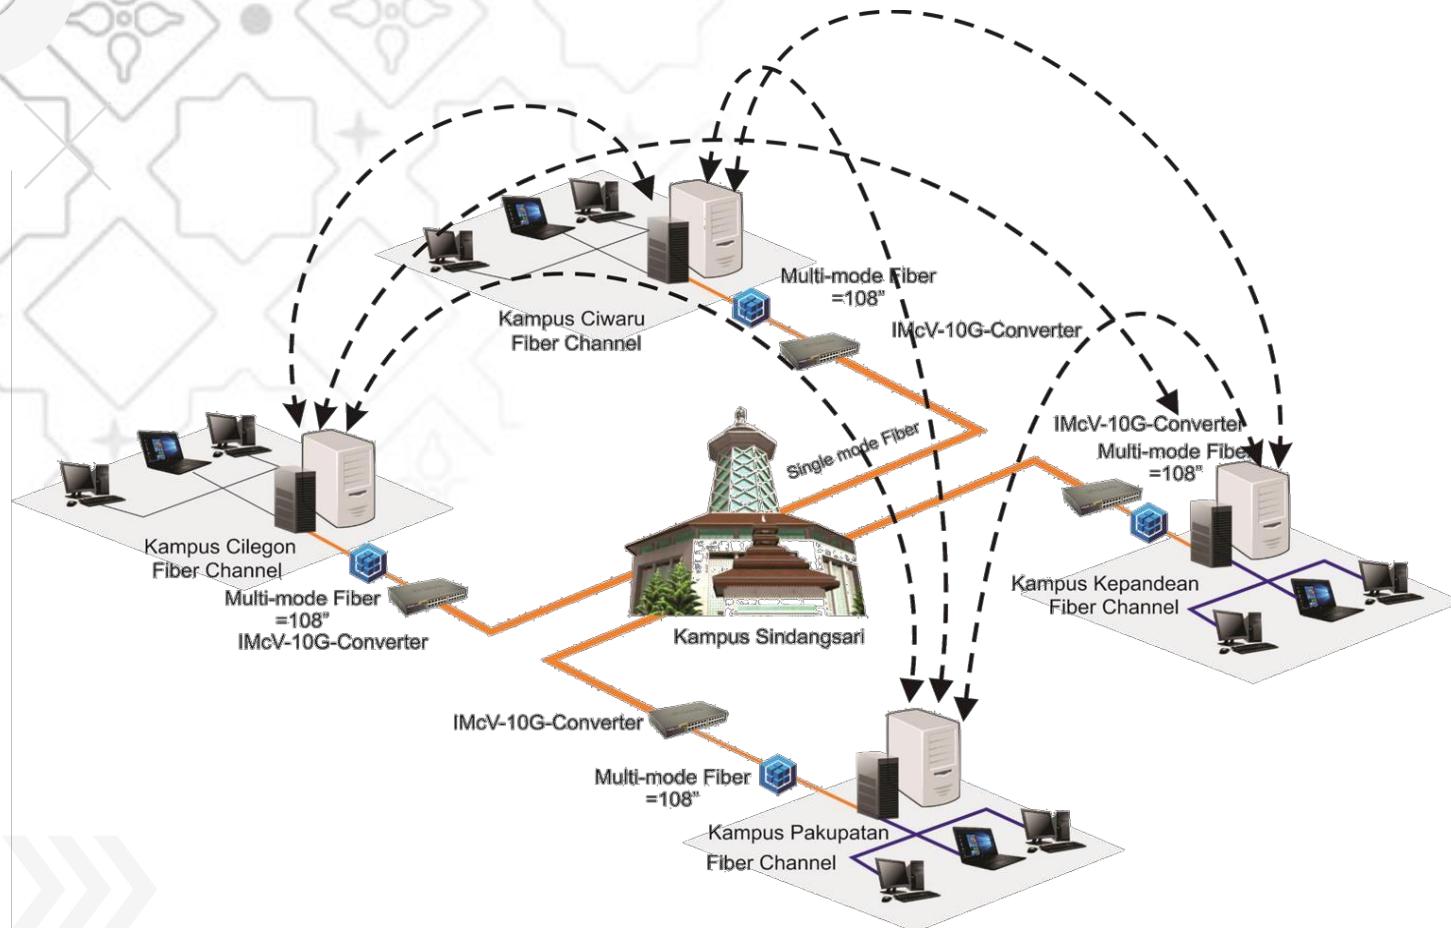

1. Open green space for 30% of the area
2. Community for Family Herb Medicine
3. Forest area in campus
4. Water absorbent area ★
5. Green pedestrian line
6. Reducing parking area and personal vehicle ★
7. Untirta's arboretum

## Transportation

1. Campus bike ★
2. Campus bus ★
3. Campus golf cart ★
4. Carpool apps
5. Car free day

# INTEGRATION

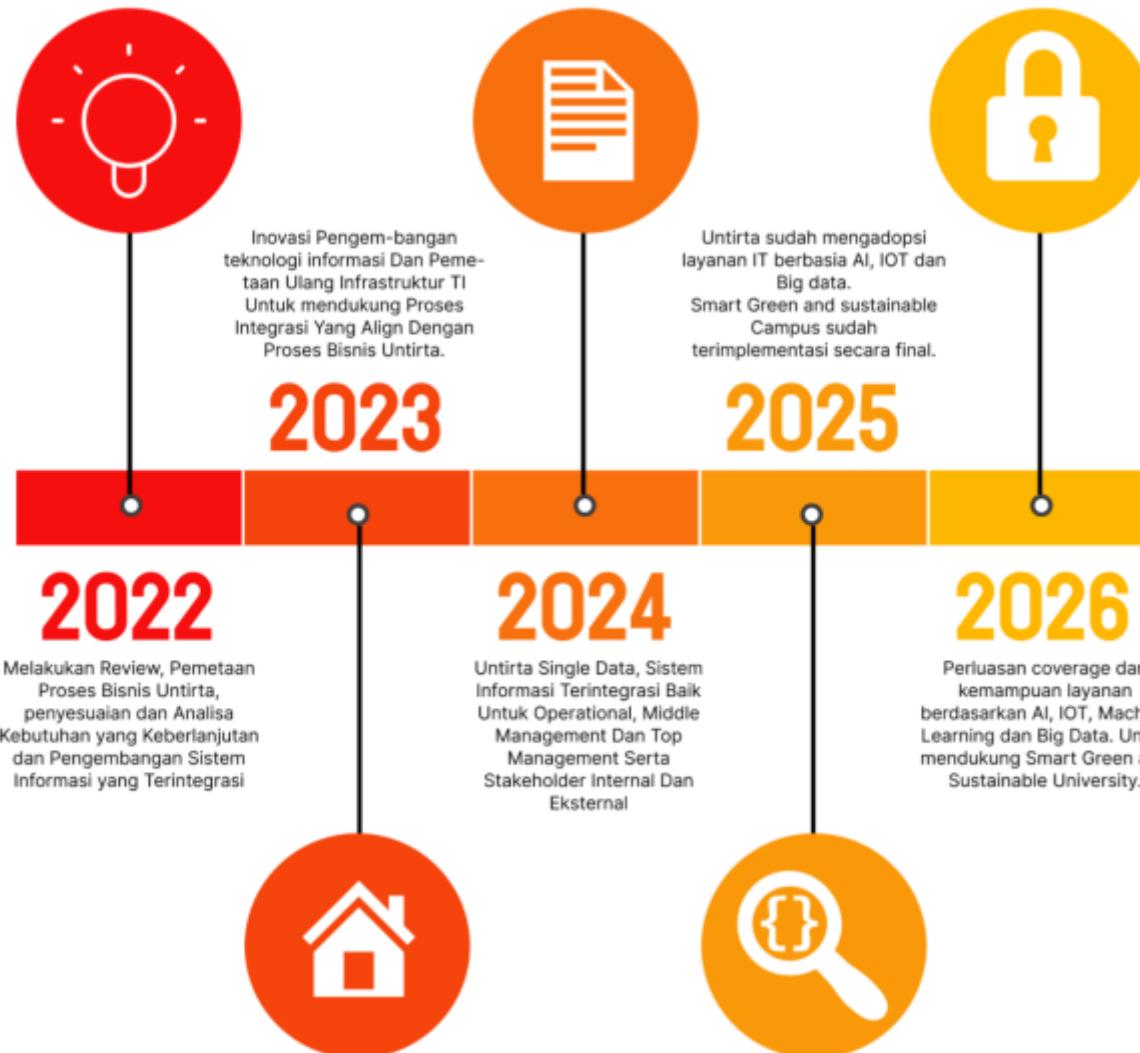

## Physical

## Non-Physical

# ROADMAP SMART CONCEPT (IT-BASED)

## PURPOSE

- Improve the implementation of an integrated online learning management system with the learning platform
- Increase employee productivity with an integrated performance management system
- Improve student experience with service management system
- Improve operational efficiency with administrative management system with easy real-time monitoring

# GREEN UNIVERSITY DEVELOPMENT

## Water

1. Water conservation program
2. Recycle water program ★
3. The use of water-efficient devices
4. Consumable Water program ★

## Education and Human Resources

1. Establish Smart and Green Unit ★
2. Incentive for SDG research ★
3. Establish Faculty of Environmental Studies
4. Publication, event, workshop and student unit in the basis of sustainable paradigm ★
5. Untirta Data Center for SDGs ★

★ Achieved

## Energy

1. 10% Renewable energy
2. Solar panel use ★
3. Internal Building Energy Audit ★
4. The use of energy efficient device
5. 20% reduction of enery consumption ★
6. Biogas unit

## Waste Management

1. Paperless and plastic less program ★
2. Integrated waste management
3. Untirta Sewage Systems (uss) ★
4. Litter bank system
5. Tipping fee litter for 500 ton/hari
6. Incenerator procurement
7. 3R Garbage ban ★

## Setting and Infrastructure

1. Open green space for 30% of the area
2. Community for Family Herb Medicine
3. Forest area in campus
4. Water absorbent area ★
5. Green pedestrian line
6. Reducing parking area and personal vehicle ★
7. Untirta's arboretum

## Transportation

1. Campus bike ★
2. Campus bus ★
3. Campus golf cart ★
4. Carpool apps
5. Car free day

# Renewable Energy Laboratory

EPD Busbar System

Photovoltaic Hybrid System  
with Battery

Smart Grid Technology Training Center

Rooftop Solar Panel  
Universitas Sultan Ageng Tirtayasa

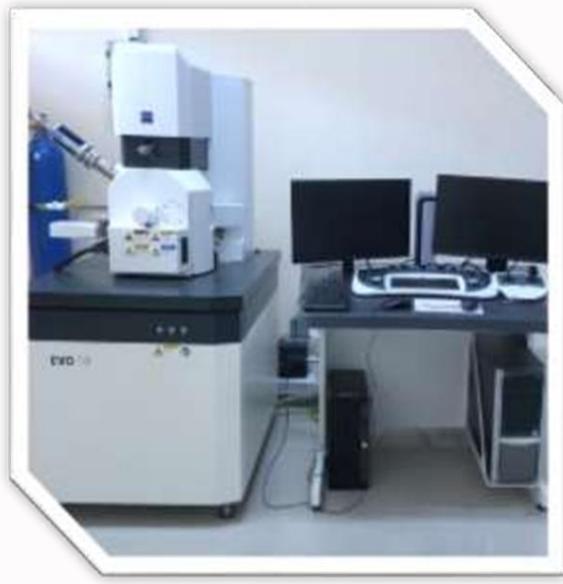

Phase 1 = 107,5 KWP  
Phase 2 = 387,2 KWP  
Total = 494,7 KWP  
Equal to 0,5 MWp

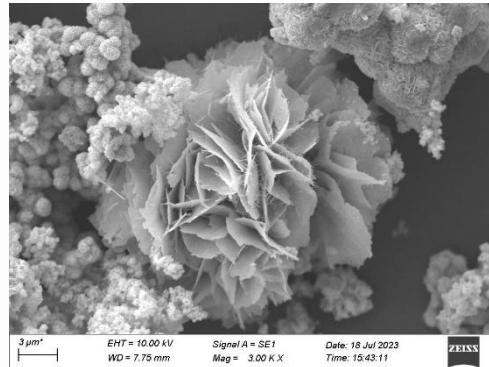

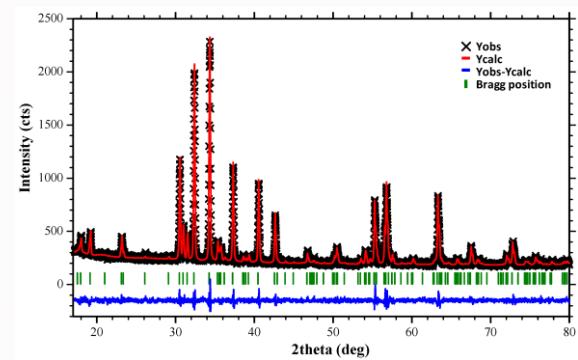

# Nanomaterials Laboratory

XRD D8 ADVANCE

SEM EDX

Sputter Coater

Critical Point Dryer

Nano Material Laboratory is laboratory that focus on research and analysis small-scale materials, including nanoparticles, nanorods and tubes, micron-scale particles, dry powders, and suspensions

Collaborated with :

PT GUNUNG RAJA PAKSI Tbk

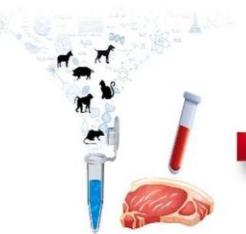

PT. DINAMIKA OTOMASI INDONESIA

# Biotechnology Laboratory

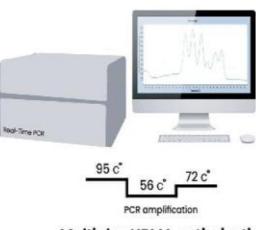

Halal test with PCR

Sample collection and DNA isolation

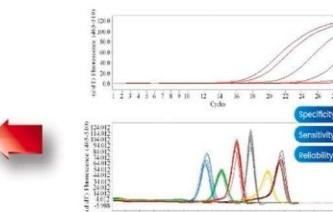

Primer design and prediction of melting temperature

Multiplex HRMA optimization

Application of multiplex HRMA for commercial food products

Validation of multiplex HRMA

Laboratory that focuses on food testing using molecular principles.

Qiagen-Rotor Gene Q

Freezer Innova U410

Water Purification System

Nano-photometer

Centrifuge

Gel Doc

Collaborated with :

 **Halal Center**  
Universitas Sultan Ageng Tirtayasa
